

Cable Pull Switches

for cable lengths up to 245 feet

Go the distance with the SR Cable Pull Switch from Warner Electric

MODEL SR

 **BERNSTEIN**
safe solutions

The SR cable pull switch is specially designed to provide personnel with ready access to a machine stop switch up to 245 feet away by simply pulling on the cable. This safety switch is ideal for use along conveyors or on the perimeter of large manufacturing machinery. The machine will stop when the cable is pulled or when the cable breaks. The machine cannot start until the switch is reset.

- 245 ft. max. cable length
- Slim profile
- Plastic housing
- Emergency stop button
- Quick cable connection
- Easy cable tensioning
- Cable tension display

(on selected models)
